

**English translation of APPENDIX "V"
of CCS connection agreement**

eFREIGHT CONNECTION AND USAGE

1. Common intention of the parties to replace certain paper based documents (manifest, MAWB, HAWB, commercial invoice, certificates etc.) in the logistics chain with electronic data interchange (hereafter referred to as the "EDI") messages during air transportation of goods, creating the suitable environment for distribution of these documents in electronic format to all participants of the logistics chain.
2. User join to the EDI system regulated and supervised by the Hungarian Tax- and Customs Authority BUD Airport Directorate (hereafter referred to as the "Customs") in relation to flights and RFS's departing from-, and arriving to Budapest Liszt Ferenc International Airport, as the procedures regulated by the Customs and published as described in paragraph 11.
3. In view of the above, by using the appropriate functions of the software provided for the User by this Agreement, the User undertakes the following in relation to all air cargo shipments:
 - 3.1. transmit all IATA standard MAWB final data in FWB message to the CCS Hungary eFreight System (hereafter referred to as the "System"), and via the eFreight system to all relevant parties e.g. Customs, Handling Agent, connected carrier etc.
 - 3.2. in relation to shipments selected in eFreight System for customs inspection, cooperates with Customs in the inspection
 - 3.3. Observe the eFreight rules and monitoring its changes as published (publication rules described in paragraph 11.)
 - 3.4. parties agree to accept electronic invoice through eFreight system from other eFreight participants
4. Parties undertake the rules of this agreement and positively disclaim their rights to question any statement or contract purely because statement or contract was made by or via EDI.
5. All parties mediate in order to the content of received or sent EDI message comply with their national law while the use of its national law may not limit the content of EDI messages. All parties make the necessary steps to inform the other party in case of non-compliance. A contract or statement made by EDI is executed when and where the related message reaches the recipient's computer system.
- 6.
7. As permitted by the national law, in accordance with this Contract and its Appendixes, Parties ensure that the saved and archived EDI messages will be acceptable in Court and the facts will be proofs as long as no contradictory proofs are presented.
8. Parties ensure the security of EDI messages by appropriate security and IT measures.
9. Parties ensure and maintain the appropriate operational environment to operate EDI as agreed in this Contract.
10. Within the set by the Law territory of Customs, customers operating temporary on trust warehouses under the permission given by Customs (hereafter referred to as the "Warehouse operators"), may pass to each other shipments which are already reported to Customs and registered by customs, without any further administration or collateral, using the EDI shipment transfer system as the procedures regulated by the Customs and published as described in paragraph 11.
11. The procedures and regulations set by the Customs are published in the system User Manual and procedural orders which documents latest versions are available at <http://support.ccs.hu> which documents are qualified to inseparable technical attachments of this Contract.

12. The User data and contacts (in case of change, the User must immediately report the change to Customs and CCS) are as follows:

Company name:

Registered at:

Address of operations:

Contact person:

Phone: (+36)

Fax : (+36)

Mobile phone: (+36)
